

Access the New Compliance Dashboard in Compli®

Training for the Compliance Dashboard

Thanks for using Compli® by Compliance Training Partners.

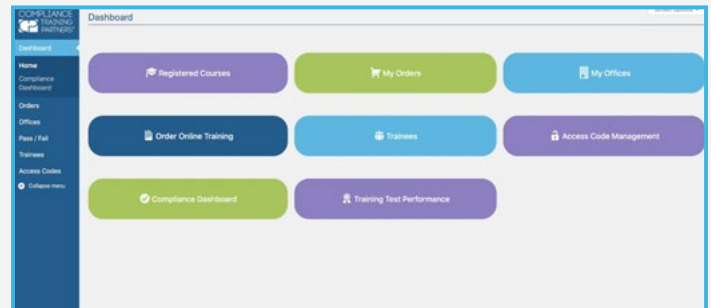

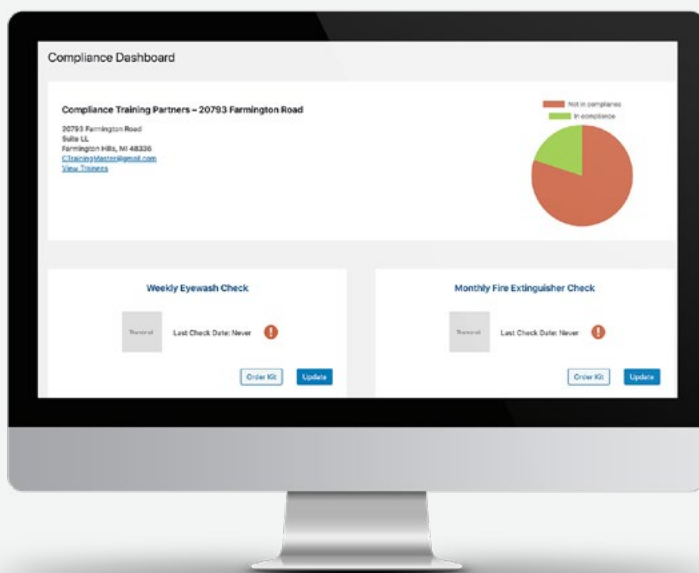

There's a brand new feature now available - introducing the Compliance Dashboard!

This dashboard allows you to monitor, address, and stay up-to-date with your required in-office compliance by using one convenient online location.

Accessing the Compliance Dashboard

Accessing the Compliance Dashboard is easy - just find the green 'Compliance Dashboard' button within Compli! You can also access the new Dashboard via the tab on the left-hand side of the screen.

When you navigate to the page, select your office.

Your Compliance Rating

Within the Compliance Dashboard, you will see a graph showing the office's current compliance rating, which is determined by the current level of overall compliance. Confirmed compliance checks and completed training courses will increase your score, while missing information or incomplete training will lower your score.

Submitting In-Office Compliance Checks

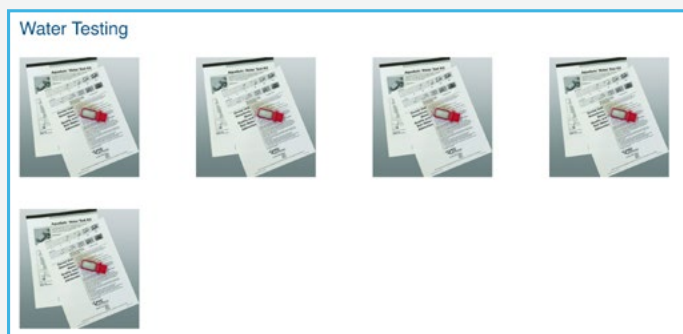

The Compliance Dashboard allows you to monitor and maintain your in-office compliance.

The following periodic compliance inspections can be found within your dashboard:

- ✔ Weekly Eyewash Check
- ✔ Monthly Fire Extinguisher Check
- ✔ Weekly Spore Test of Autoclaves
- ✔ Quarterly Dental Unit Water Testing

To update the information for each, simply click on the 'Update' buttons. Once clicked, the window that opens will allow you to upload a photo, as well as enter the date, who performed the check and whether the result was a pass or fail.

Doing so in a timely and accurate manner for all four sections will raise the office's overall compliance rating. If you are unable to complete a compliance check, selecting the 'Order' button will direct you to available needed products for purchase.

Monitoring Required Training Participation

In addition to monitoring your in-office compliance, the Compliance Dashboard allows you to monitor trainee participation in required courses. You have the ability to view overall office testing performance at-a-glance by viewing the Compli bar near the bottom of the page. Clicking on 'View Trainees' allows you to view individual training data for registered users.

A Truly Comprehensive Experience

The Compliance Dashboard helps dental offices meet and maintain full compliance in ways that are more convenient than ever! In addition, Compli® now offers multi-access training codes for your entire team, and Regional Managers have the capability to access compliance records for all their locations.

If you have any questions, please contact Compliance Training Partners at **888-388-4782**.
