Annual Required OSHA Safety Training Course Including Biomedical Waste Regulations and CDC Infection Control Guidelines Conducted in Your Office!

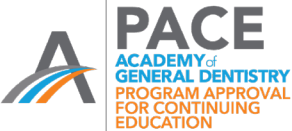

Course Requirements

OSHA requires employers to train ALL exposed employees annually. It is also required to train employees on CDC Infection Control Guidelines. This training program includes:

- Chemical Safety
- Globally Harmonized System (GHS)
- Medical and First Aid
- Personal Protective Equipment
- Walking and Working Surfaces
- Hazardous Materials
- Means of Egress
- Fire and Emergency Preparedness
- Electrical Safety
- Radiation/ X-ray Safety
- Recordkeeping
- Ventilation
- Post Exposure Protocol
- Workplace Violence
- CDC Infection Control Guidelines

This comprehensive training will review the current OSHA safety requirements and CDC Infection Control Guidelines. It will also fulfill annual training requirements for your staff. You will receive an OSHA and Infection Control Checklist, OSHA required forms, a detailed workbook and other training resources to achieve compliance in your office.
